The annual meeting of the Copper Country Hockey League officials will be held this evening at the Scott hotel in this city, beginning at 8:15 o'clock. Representatives of the several clubs in the league will be present and officers for the season will be elected, besides which the arrangement of a schedule will be discussed. Hancock, Houghton, Calumet and Mohawk will be represented, but the Red Jacket team, it is understood will drop out, so that it is probable that some other town may be taken into the league.

The schedule committee to be appointed tonight will report at another meeting to be held in about two weeks. It is expected that the games will begin early in December and continue until March with two games a week.

Camden, N.J.—"It is with pleasure that I add my testimonial to your already long list—hoping that it may induce others to avail themselves of this valuable medicine, Lydia E. Pinkham's Vegetable Compound. I suffered from terrible headaches, pain in my back and right side, was tired and nervous, and so weak I could hardly stand. Lydia E. Pinkham's Vegetable Compound restored me to health and made me feel like a new person, and it shall always have my praise."

—Mrs. W. P. VALENTINE, 902 Lincoln Avenue, Camden, N.J.

—Mrs. S. A. WILLIAMS, R. F. D. No. 14, Box 39, Gardiner, Me.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female illness, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, indigestion, dizziness, and nervous prostration. It costs but a trifle to try it, and the result is worth millions to many suffering women.

YEOMEN'S LODGE WILL BE FORMED IN HANCOCK SOON

While Hancock has lodges representing a large number of the best known fraternal societies in the country, it has as yet no body of the Brotherhood of American Yeomen. This omission will soon be rectified, however, and within two months at the latest it is expected that a branch will be formed in this city.

Mrs. Carrie Reeves of Menominee, general organizer for Michigan, is now in Hancock securing names of prospective charter members for the lodge which it is proposed to establish here, and which she expects to have in shape within six or eight weeks. She is meeting with much encouragement from parties on whom she has called and believes that a membership of at least twenty-five to begin with will be obtained.

Mrs. Reeves has already organized lodges of the Yeomen in Lake Linden, Calumet and Palmsdale, and Hancock is the last town to be canvassed. In Menominee, Mrs. Reeves' home town, the society is very strong, having among its members some of the leading citizens. Four years hence the state convocation will be held at Menominee, and a big time is in store for the members who attend, a local committee having already begun preparations for the event.

The Brotherhood of American Yeomen was organized twelve years ago, and its headquarters are located at Des Moines, Iowa. It has a membership of over one hundred thousand and its assets aggregate over \$1,200,000. At the time of its foundation it had 955 members and a reserve fund of only \$799.50. The Yeomen issue a combined life and accident certificate to men and women alike, making it possible for a whole family to join and participate in its benefits and meetings. Up to date it has paid out total losses amounting to \$4,192,359.81.

Take Off the Fat Where It Shows

Most women suffer much humiliation because of great quantities of fat, so located that, no matter how they dress, everybody sees that they are abnormal. This is the day of the slender figure, and fat women are simply not tolerated either in business or social affairs. Women may not know it, but men when they see a fat woman pass them on the street or in public places make all manner of sympathetic remarks about her. They do not mean to be unkind or to seem unmanly, but it is natural for a man to dislike fat on a woman. Where fat shows the most there is where it must be removed, and as quickly as possible. This season's dresses seem to be made for the fat woman's misery and the slender woman's delight. They expose all the charms of woman and her ugliness as well. Exercise and diet will not remove fat. This has been proved. The famous Marmola prescription which has met with such phenomenal success and has so many of our society women as its sponsors, is now being sold in tablet form to meet the demand of the public for this style of treatment. These little tablets go into your system just like food. They stop the stomach and digestive apparatus from producing fat and reduce the fat upon the body at the rate of from 12 to 15 ounces a day. They are harmless and can be carried in your purse and taken even after you have indulged in a hearty meal away from home. They are sold at all drug stores at 75 cents a case, or if you prefer you may write the Marmola company, 950 Detroit, Mich.

TORCH LAKE NEWS

TORCH LAKE YOUTH MEETS DEATH IN AWFUL ACCIDENT

Body Ground to Pieces in Powerful Mechanism of Chilian Mill—Lawrence Guibord Accidentally Falls Into Mill and His Comrades Are Unable to Rescue Him.

Lawrence Guibord, aged 17 years, an employee of the C. & H. stamp mills at Lake Linden, met death yesterday afternoon in one of the most horrible accidents ever recorded in that community. Guibord accidentally fell into one of the Chilian mills, used to crush the rock, and was literally ground to pieces in the powerful mechanism. A companion, Ely Pelland, also a mill employee, fell into the mill but with presence of mind clung to a bolt which kept him from going beneath the heavy wheels, until the power could be shut off, and the mill stopped.

Guibord, Pelland and another employee, Ulrich Robarge, were standing near the safety rail, which surrounds the machinery, conversing. The two first named sat upon the rail, a small pipe, and their combined weight caused it to give way beneath them, precipitating them upon the wheels which are used to grind the rock. Guibord gave a piercing scream as he realized his fate, and slowly slid into the machinery, his companions being entirely unable to prevent the accident. His body was completely crushed and almost unrecognizable, when the mill had been stopped. Pelland grasped a bolt and held on, while Robarge rushed off to the switch and stopped the machinery. He emerged from his dangerous position none the worse for the experience.

The victim of the accident was a son of Mrs. Thomas Guibord of Lake Linden. He is survived by a number of brothers and sisters, George, Alfred, William, John, Nelson, Charles and Edward of Lake Linden, Joseph of Tamarack City, Adolph of Point Mills, Mrs. Samuel LaRose of Lake Linden and Mrs. Nicholas Schick of Calumet.

Justice E. F. Prince of Lake Linden conducted an inquest over the remains of Guibord last evening. After hearing the testimony the jury returned a verdict to the effect that the deceased came to his death "by falling into a Chilian grinding mill in the grinding plant owned by the C. & H. Mining company at Lake Linden, the fall being caused by the giving away of a temporary guard rail upon which he was leaning." The jury was composed of Phil Pfeffer, Wm. Parks, Sam Pierce, John Owen, James Shields and L. S. Chabot.

The funeral of the unfortunate young man will be held on Friday morning with services at the St. Joseph church conducted by Rev. Fr. Raymond and interment in Mount Calvary cemetery.

Mr. Marchand was a member of the Knights of Columbus, the St. John Baptiste and Maccabee organizations and the members of these orders will attend the funeral. The members of the L. O. T. M. of Hubbell will give a card party in Opa's new hall next Monday evening. Dance music will be furnished by Hart's orchestra.

The Tamarack Mills Sunday school will give an old time social at the school house Saturday evening of this week. During the evening a supper will be served and an entertainment will be provided.

WOMEN AS SOLDIERS.

Were Once Reckoned Among Fighting Force—Mythical Amazons.

From the nature of things women soldiers can only be found as a class among barbarians—up to this time at any rate. The Iceland peasant shoes his pony with sheep's horn. In the upper oxus valley horsehoes made of the antlers of the mountain deer, fastened with horn pins, are employed. Horses in the Sudan wear socks of camel's skin.

The Board of Trade report on the hours and wages in the clothing trades of the United Kingdom shows that the total number of work people employed in this section is about 1,500,000, 400,000 being men. About half of them are employed in factories and workshops, the rest apparently being engaged in doing their work at their homes.
